Textbook: ISBN 0030237629 / Study Guide: ISBN 0030237947

The factor-label method is also very useful in converting non-metric units into metric units. For example, in some chemistry problems you might be called upon to convert the energy of a food that ...

Course Summary Chemistry 101: General Chemistry has been evaluated and recommended for 3 semester hours and may be transferred to over 2,000 colleges and universities.

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...
