Many of the handouts will be in Portable Document Format (PDF). If you don't already have a viewer for PDF files, you can [Download the Foxit Reader](#) or [Download the Acrobat Reader](#). Lecture Notes. Note: Not all lectures will have handouts, this table only provides handouts that are available electronically. [Home](#) > [Support](#) > [Basics of Surge Protector: What is surge? What is transient voltage surge? Surge and Transient Voltage Surge](#) are temporary rise in voltage and current on an electrical circuit. Their voltage ranges are greater than 2000 volt and current ranges are greater than 100 ampere. Typical rise time is in the 1 to 10 microsecond range. [Littelfuse TVS Diode Array \(SPA\) Selection and Product Overview](#). Littelfuse TVS Diode Arrays (SPA ® family of devices) are an ideal choice for suppressing ESD and other electrical transients as their speed and clamping levels are essential to protect today's integrated circuits. The portfolio offers a wide range of devices to suit the majority of applications available in the market with ESD ... [A Condensed Guide to Automation Control System Part 3: Design](#). In Part 2 (Spring 2005 Issue 4), we covered how to specify the various devices required for interfacing and controlling the electrical equipment in an automated
