

Download Ruger Lcp Owners Manual

LCP and + P Ammo. This is a discussion on LCP and + P Ammo within the Ruger Pistols forums, part of the Pistol & Revolver Forum category; After several months of debating if I even wanted a LCP I went ahead and got one the other day. Personally I'm not much on a ...Best-in-Class Lightweight Compact Pistol. Compact at just 5.17" long and 3.71" tall the LCP II is designed to fit a variety of holsters and provide concealed carry options. Features a short, crisp, single-action trigger pull. The Ruger LCP has been one of the true success stories in contemporary small-caliber self-defense firearms. At only 9.4 ounces, the LCP uses a composite frame (high-performance glass-filled nylon), an aluminum subframe grip frame and a through-hardened steel slide with a 2.75-inch steel barrel. Ruger has discovered that some Ruger American® Pistols chambered in 9mm may exhibit premature wear of the locking surfaces between the slide and barrel which, if ignored, can result in a crack developing near the ejection port of the slide.
